## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 12, 14 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Struss, et al (6,149,166).

Struss, et al discloses a vehicle suspension system comprising a stabilizer bar 30; bar discs 80 connected to the vehicle wheel; a clutch device 70 wherein the clutch device houses the bar discs; and clutch discs 84 which are connected to the vehicle frame. The bar discs and the clutch discs interact to control a level of stiffness of the stabilizer bar.

Struss, et al teaches a plurality of clutch discs and a plurality of bar discs wherein the plurality of discs alternate. The stabilizer bar includes a division 92 which splits the stabilizer bar into equal portions 50, 46 wherein the clutch device housing the division as shown in figure 2.

### ***Allowable Subject Matter***

3. Claims 16-20 are allowed.
4. Claims 2-11, 13 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments filed June 30, 2003 have been fully considered but they are not persuasive. The applicant argues Struss, et al does not disclose clutch dampers connected to a vehicle frame; the examiner notes the clutch dampers are connected to the vehicle frame via stabilizer bar by brackets 54 and 56. Further, the reference clearly teaches the claimed structure.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
